Mr. Sydney F. Roe, Secretary,
The American Numismatic Society,
New York City,
Dear Mr. Roe:-

I in the process of getting
together a small and ordinary
collection of Greek bronze, I have acquired
about ten coins that I cannot classify.
None of them seem to be Greek, altho part
may be barbarian imitations. The balance
just don't fit in anywhere. The Denver
library has but about 50 coin books.

Can I arrange to have anyone in
connection with the society look these
over for me? They are not very important,
but now have my curiosity aroused.

Very truly yours

Mr. Sydney P. Roe,
New York City,

Dear Sir:-

I am enclosing herewith the ten coins I wrote you about a few days ago. Envelope for their return is enclosed, but I did not register as the value is negligible.

These were picked out of several pounds of coins that came to an American dealer from an unknown English source several years ago. Of course they are of no importance but have aroused my curiosity. Any information you can give will be greatly appreciated.

Very truly yours

John T. Roberts Jr.

Dear Mr. Roberts:

Your letter of the 16th is at hand and I have indicated on the envelopes which you sent us a brief description of what these pieces are. Some of them are rather interesting and if this whets your interest in ancient coins I shall be very glad.

Very sincerely yours,

Secretary.

Dear Mr. Roe:

I want to express my appreciation and thanks for the identifications of my coins. I feel stupid in not being able to read the Greeks, at least.

I now have several hundred bronzes, mostly Greek and have them pretty well classified according to Head. I find more enjoyment, per dollar, in the study of these coins at a few cents each than in the acquisition of a few large silvers at so many dollars each. And am constantly seeking for sources from which I can get unattributed bronzes at a right price.

Thanking you again, I am

Most sincerely

John P. Roberts

My dear Mr. Roberts:

Your letter of April 30th is at hand and I am glad to have you write as you do regarding the bronze coins. I am wondering whether you would be interested in a small lot that was recently sent us from Sicily, by a dealer there, and which, although not in as good condition as some of the pieces you sent us, are interesting and could be had for a very small expenditure. There are about pieces and Mr. Newell our President, has looked them over with me and we both feel that an offer of for them should be accepted. If under the circumstances you would care to consider them, we can have them sent you. I hope you will feel that there is no obligation whatsoever on your part to act on this suggestion unless it appeals to you. Greek bronze coins of Sicily do not often come into the hands of a dealer and I believe you will get considerable satisfaction from working on such a group as this.

Sincerely yours,

Secretary.

Dear Mr. Noe:-

I appreciate very much
your interest in my behalf. And am
very pleased to enclose my check for
\$20.00 for this lot of coins from Sicily.
This is just the kind of thing I am
looking for all the time and so seldom
finding. Thank you.

My dear Mr. Roberts:

Your letter of the 7th is at hand and I am sending you the collection of coins by registered mail. I am holding your cheque until I receive word from you that you are satisfied with the coins at the price you have paid for them, thus putting into effect what I offered you - to have them sent on approval. If you feel that you are satisfied perhaps you will wish to send the postage cost when you reply

Mr. Sydney P. Noe.
New York City,
Dear Mr. Noe:-

The lot of coins came in due season and I am well pleased to have the opportunity of acquiring them. I judge them to be the accumulation of a dealer, rather than a part of a find or even a lot from one locality. I enclose stamps to cover the postage. And wish to express my appreciation for your kindness. I am getting much enjoyment from studying them out.

Very sincerely

John T. Roberts Jr.
